

UKG Pro Advanced Scheduling

UKG Pro® Advanced Scheduling (formerly UKG Dimensions® Advanced Scheduling) puts your most trusted, qualified people and their well-being, at the forefront while removing the guesswork from scheduling. It places a specific focus on helping your organization anticipate staffing needs, control labor costs, improve employee productivity, deliver exceptional customer service, and ensure continuity of people operations while supporting your people in a meaningful way.

The advantage

Make your people happy and improve your bottom-line results.

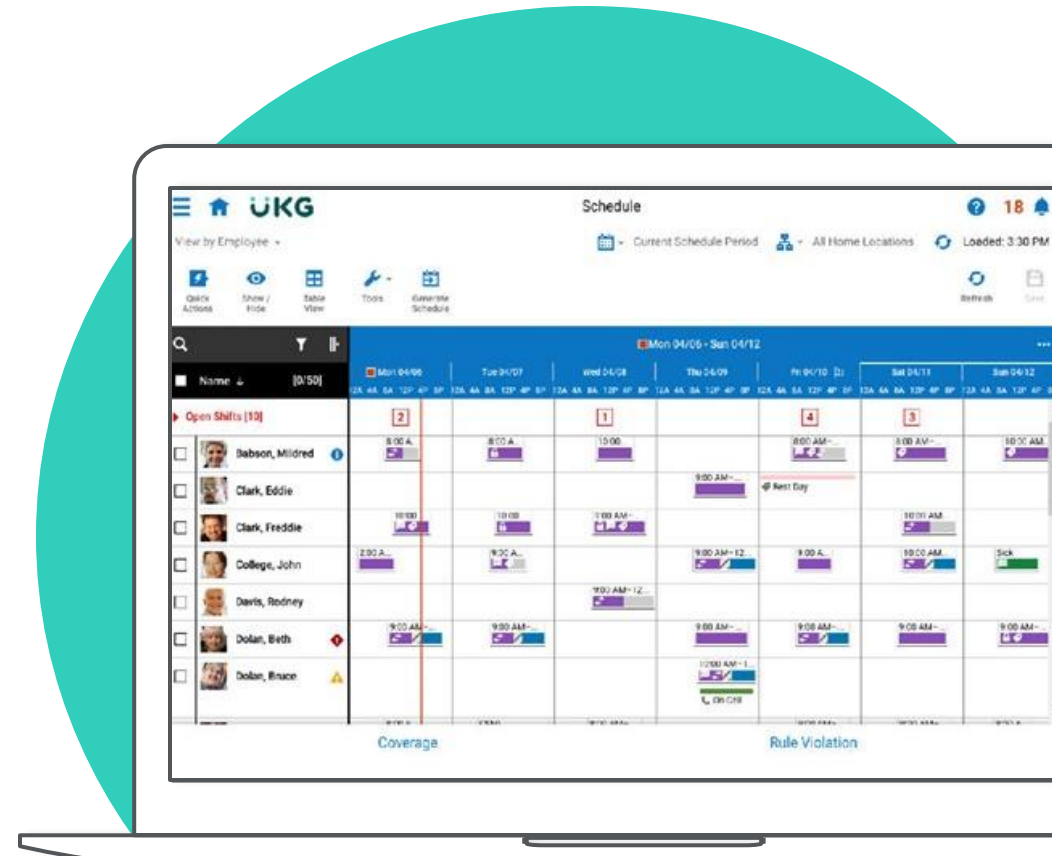

- Enable employees to identify shift preferences and availability patterns
- Support life-work decisions by giving your people more schedule flexibility
- Provide intelligence, rule checking, and shift coverage functionality
- Leverage algorithms that prepare best-fit schedules for everyone
- Help managers balance resources and align best-fit schedules more effectively

Staffing matrix untangled

Automatically build schedules by leveraging sophisticated scheduling algorithms purpose-led by your scheduling habits. Advanced Scheduling untangles overtime offenders and other meaningful KPIs. Build a more engaging employee experience with connected self-service opportunities that will leave your people feeling empowered to get the work done according to your staffing requirements and their unique life-work experiences.

The UKG approach to scheduling

The UKG Pro Scheduling solution packages follow an incremental approach – evolving tiers from Scheduling to Advanced Scheduling to Forecasting. Be confident in both accurate scheduling and optimized schedules for the business, while keeping your people feeling safe, heard, and valued.
